Malayalam

English

Hindi

Arabic

PROFILE

"Hello, I am a motivated Mern Stack Developer with over 1 year of hands-on experience, currently based in Kannur, Kerala. I've honed my skills through self-directed learning, crafting web applications, and leveraging resources like Stack Overflow to troubleshoot and improve.

Notably, I've pursued this journey without a formal computer science degree, with my educational background comprising +1 and +2 in Computer Science. Choosing to shift focus from a BCA degree, I've dedicated myself to self-learning to master the craft.

I am passionate about creating captivating user experiences and continue to seek opportunities to grow and contribute to exciting projects in the ever-evolving world of web development."
